**WHY MOUNT HOPE CHURCH?? & press link**

Ok, so again we feel the message of Why we chose Mt. Hope is

getting lost. Here again is the piece we crafted to explain.  
Feel free to forward wisely.  
What was that noise ?

## Bash Back! responds to the backlash

In the past weeks there has been an unprecedented amount of controversy and reaction to the Bush Back! action at Mount Hope Church, in Lansing Michigan. Thanks to the media who have failed to cover this with any amount of effort or concern for the truth, as well as incessant blogging. Many important pieces of information have been lost, and at times, changed completely. We would like to set some things "straight" in order to provide a full explanation, we will break this into parts.

- why Mount Hope Church?
- Why these tactics and what did we hope to accomplish?
- DisPELLing myths.

### Way More Hope Church?

The first issue we would like to address is the nationally wide-spread question of, "Why Mount Hope Church?" (MHC) Good question. The first thing to realize is we did not just randomly pick a place, nor did we pick the biggest place. A lot of issues went into our decision; I will discuss the major ones: First, MHC's stance on queer identities. In their recent press release, Dave Williams or I-Willy as we are affectionately refer to him states that they simply "are being gay" and "it is a sin" and "they are lying or twisting." This is a sneaky way of getting off the hook. You can see for yourself that they take it much more seriously.

According to one of MHC nearly all forms of sexual (and specifically homosexuality) are considered "sexual addiction". Openly lumping homosexuals with such sinners as peeping-Toms, fluffers and even rapists! These "addictions" they work to "cure" through strict "support groups" such as Duesmale (see web link at bottom). And at times even send men to live in brainwashing camps such as Pure Life Ministries (see bottom). They also organize with other ex-gay organizations such as Love in Action, Homosexuals Anonymous, and L.I.P.E. Ministries. It is clear that MHC takes an active approach to repress queer identity and all forms of sexual expression outside the Christian, straight, married and husband controlled structure. This ruling people's whole lives and identities, then repress any desires to do anything that they grow to hate themselves and/or act out against or ignore their spouses and families. This church is nothing more of a disease in the community, and in the minds of those who attend.

"D-willy," Pastor of Mount Hope, "and personal enemy of Bama Backli" stated that he did not "choose to identify MNC as anti-choice". However, every Halloween the Church puts on the heavily protested "Hell House", an extremely offensive and yes RACIAL approach to snook people into the church. The "Hell House" is a play that depicts a woman who is in this Hell House completely inaccurately depicts a woman receiving an abortion. In the act, the doctor uses dirty tools, and horrible machine sounds play over loud speakers. With the presence of demons, and her screams of pain, one can only imagine the "Hell House" is a play that is so violent atrocious. How is this not actively anti-choice?

selecting people who had been in the "back" was chosen, as the most important message that "Back" was chosen, was the desire to help those who had been in the "back". The first step was to help those who had been in the "back". The first step was to help those who had been in the "back". The first step was to help those who had been in the "back".

From here I could go into all the other reasons MHC should be confronted. For example, the undeniable fact that mega-churches are really just big business. Seen by the way they pressure their "congregation" (or audience) to buy their books and DVD's and other products. Or the incredible amount of money grossed by that church in a year. Another reason is the international church plantings. MHC has No regard for indigenous culture. There are dozens of reasons we chose Mount Hope Church.

 "Our culture is permeated with sexual imagery. Magazine racks offer pictures of girls in teeny bikinis. Primetime situation comedies almost continually revolve around sexual storylines involving teenage promiscuity, extra-marital affairs, homosexuality and worse."

"At times, a pastor or counselor may very well find

EXHIBIT 3

himself helping men who frequent adult bookstores, strip clubs, massage parlors and prostitutes. On occasion, he saw also be compelled to minister to men involved with peeping in windows, exposing themselves to women, making obscene telephone calls, sexually assaulting others, or even having sex with animals. He will most certainly deal with promiscuity among teenagers and adults. More than likely he will minister to homosexuals-both male and female."

What did Bash Back! hope to accomplish? Why these shocking tactics?

There were a few main points and goals of this action:

- To confront the oppressors that run the church and show them some of us are unafraid and will resist them. Calling them out IN FRONT of their congregation was an important part of that. Showing that we are angry with their destructive behavior was also an important part of the message.
- To provide a space for those who had been mentally tortured by MHC and other places similar to confront their "demons" and fight back! Their emotional health was a very real concern of this action.
- To show the youth we are not alone! With an action of great energy and helpful filters we wanted to send a message of acceptance and understanding. We realize that thinking you might be queer in a church like that is terrifying. And unbearably lonely. By tossing out a thousand flyers we provided a way "out". Or at least planted the seed.
- And to generate visibility to Bash Back!! To build momentum and give us energy to our movement. I think we nailed that one.

Heres some press linx feel free to post more in the blog comments. Ill po
